

**Indiana University South Bend  
Leighton School of Business & Economics  
Executive Roundtable  
Program Summary**

The Executive Roundtable engages a diverse group of C-Suite/Key Executives in a business peer group designed to strengthen leadership abilities and support professional and personal development. This roundtable, which typically involves eight to 12 business executives, provides a confidential forum where participants can share challenges and experiences — and enhance their capabilities.

It is a confidential peer group environment that is not industry or role specific and can offer broad perspective, support and insight. One of the things that makes peer learning so appealing is the just-in-time, on-target feedback. The format enhances leadership abilities and improves decision-making.

**Format:** Monthly meetings are the 4th Wednesday of the month January-December 2021 from 8:00-11:00a.m., via Zoom until we can safely gather in-person again. Participation also includes a monthly one-on-one meeting with facilitator.

**Member Profile:** Executive Level - C-Suite or Key Executive, looking for a unique leadership development opportunity, willing to commit, engage, and contribute.

**Guidelines:** One member per industry, one member per company.

**Cost:** \$3,000 per member

***Comments from Roundtable members -***

*~I have found the sharing of ideas and issues among members to be the most valuable aspect of the program. Hearing the experiences different businesses have has been very useful to help me better assess current challenges in our organization.*

*~Nancy puts the group at ease and encourages sharing of information as well as offers individual attention on certain topics a member may be struggling with.*
